CLASS ACTION

COMPLAINT FOR VIOLATIONS OF THE
FEDERAL SECURITIES LAWS

DEMAND FOR JURY TRIAL

1 common stock traded at artificially inflated prices during the Class Period, reaching as high as \$1,229
2 per share on March 8, 2024.

3 5. This action alleges that Defendants intentionally or recklessly misled investors during
4 the Class Period by: (a) materially misstating Super Micro's reported revenues, earnings, and other
5 financial figures in violation of GAAP; (b) failing to disclose that Super Micro's internal controls
6 over financial reporting were ineffective; (c) concealing material information about related parties
7 and related party transactions; and (d) claiming to have been in compliance with trade control
8 regulations restricting exports to Russia.

9 6. Super Micro's fraud was first revealed on August 27, 2024, when investment research
10 firm Hindenburg Research ("Hindenburg") published a report titled *Super Micro: Fresh Evidence of*
11 *Accounting Manipulation, Sibling Self-Dealing and Sanctions Evasion at this AI High Flyer* (the
12 "Hindenburg Report"). The Hindenburg Report provided credible evidence of "glaring accounting
13 red flags, evidence of undisclosed related party transactions, sanctions and export control failures,
14 and customer issues" at Super Micro. As detailed in the Hindenburg Report and corroborated by a
15 recent whistleblower lawsuit, Super Micro improperly recognized revenue from equipment sales to
16 multiple large customers, recorded incomplete sales before fulfilling contractual obligations, and
17 misallocated revenue to its hardware business to artificially inflate its profitability from fiscal years
18 2020 to 2022.

19 7. In addition to uncovering significant accounting misconduct, the Hindenburg Report
20 revealed compliance violations related to U.S. export controls. Despite claims of halting sales to
21 Russia following the 2022 invasion of Ukraine, the report found that Super Micro circumvented U.S.
22 export controls between February 24, 2022 and June 30, 2024. During this period, Super Micro's
23 exports to Russia surged, with approximately \$210 million of products shipped to the country. In
24 reaction to the Hindenburg Report, Super Micro stock ***dropped 2.64 percent***, to close at \$547.64 per
25 share on August 27, 2024.

26 8. The next day, on August 28, 2024, Super Micro announced that it would delay the
27 filing of its annual report on Form 10-K to assess the "design and operating effectiveness of its internal
28

controls over financial reporting.” On this news, Super Micro stock ***dropped 19.02 percent***, to close at \$443.49 per share on August 28, 2024.

9. Then, on September 26, 2024, *The Wall Street Journal* reported that the U.S. Department of Justice (“DOJ”) had initiated an investigation into Super Micro. The investigation reportedly focused on allegations made by a whistleblower and former employee, who accused the company of accounting violations. On news of the DOJ investigation, Super Micro stock ***dropped 12.17 percent***, to close at \$402.40 per share on September 26, 2024.

10. As a result of Defendants’ wrongful acts and omissions, and the precipitous decline in the market value of the Company’s securities, Plaintiff and Class members have suffered significant losses and damages.

JURISDICTION, VENUE, AND DIVISIONAL ASSIGNMENT

11. The claims asserted herein arise under and pursuant to Sections 10(b) and 20(a) of the Exchange Act (15 U.S.C. §§ 78j(b) and 78t(a)), and Rule 10b-5 promulgated thereunder by the SEC (17 C.F.R. § 240.10b-5).

12. This Court has jurisdiction over the subject matter of this action pursuant to 28 U.S.C. § 1331 and Section 27 of the Exchange Act (15 U.S.C. § 78aa).

13. Venue is proper in this District pursuant to 28 U.S.C. §1391(b) and Section 27 of the Exchange Act (15 U.S.C. § 78aa) as the alleged misstatements and the subsequent damages took place in this judicial district and Super Micro is headquartered in this Judicial District. The intra-district assignment to the San Jose division of the Court is proper under Local Rule 3-2(d), because a substantial number of the events or omissions giving rise to the claims arose in Santa Clara County, where Defendant is headquartered and conducts business.

14. In connection with the acts, conduct and other wrongs alleged in this complaint, Defendants, directly or indirectly, used the means and instrumentalities of interstate commerce, including but not limited to, the United States mails, interstate telephone communications and the facilities of the national securities exchange.

The crisis in eastern Europe continues to be a challenge to global companies, including us, which have customers in the impacted regions. The U.S. and other global governments have placed restrictions on how companies may transact with businesses in these regions, particularly Russia, Belarus and restricted areas in Ukraine. ***Because of these restrictions and the growing***

logistical and other challenges, we have paused sales to Russia, Belarus and the restricted areas in Ukraine. This decision, which is in line with the approach of other global technology companies, helps us comply with our obligations under the various requirements in the U.S. and around the world. While it is difficult to estimate the impact on our business and financial position of our pause in sales to Russia, Belarus and the restricted areas in Ukraine and the current or future sanctions, our pause in sales and these sanctions could have adverse impacts on us in future periods. For example, we do not make a material portion of our sales or acquire a material portion of our parts or components directly from impacted regions; however, our suppliers and their suppliers may acquire raw materials for parts or components from the impacted regions.

39. Defendants reiterated the exact or materially similar statements as set forth in ¶ 38, in the Company's Forms 10-K filed with the SEC on August 29, 2022 and August 25, 2023.

69. Defendants' statements contained in ¶¶ 22-68, and identical statements made throughout the Class Period regarding the Company's financial performance, were materially false and/or misleading because: (a) Super Micro's reported revenues, earnings, and other financial figures were materially misstated in violation of GAAP; (b) Super Micro's internal controls over financial reporting were ineffective; (c) material information about related parties and related party transactions was concealed from investors; and (d) Super Micro was not in compliance with trade control regulations restricting exports to Russia.

THE TRUTH EMERGES

70. On August 27, 2024, investment research firm Hindenburg issued a report titled *Super Micro: Fresh Evidence of Accounting Manipulation, Sibling Self-Dealing and Sanctions Evasion at this AI High Flyer*. The Hindenburg Report uncovered "glaring accounting red flags, evidence of undisclosed related party transactions, sanctions and export control failures, and customer issues" at the Company. Specifically, the report detailed how Super Micro engaged in a fraudulent revenue recognition scheme, which included: (a) misallocating revenue to hardware sales instead of services in the quarter ending December 2020 to artificially inflate profit margins; (b) prematurely recording revenue even when equipment could not be delivered or installed for customers; and (c) booking revenue early for faulty or incomplete products not yet ready for sale.

71. The Hindenburg Report also revealed compliance violations related to U.S. export controls. Despite claims of halting sales to Russia following the 2022 invasion of Ukraine, the report

found that Super Micro circumvented U.S. export controls between February 24, 2022 and June 30, 2024. During this period, Super Micro’s exports to Russia surged, with approximately \$210 million of products shipped to the country. In reaction to the Hindenburg Report, Super Micro stock ***dropped 2.64 percent***, to close at \$547.64 per share on August 27, 2024.

72. The following day, on August 28, 2024, Super Micro issued a press release announcing that it would delay the filing of its Form 10-K for fiscal year 2024, as the Company was assessing the “design and operating effectiveness of its internal controls over financial reporting.” The press release stated:

Super Micro . . . today announced that it expects that ***it will not timely file its Annual Report on Form 10-K*** for the fiscal year ended June 30, 2024 (the “Annual Report”) and expects to file a Notification of Late Filing on Form 12b-25 with respect to the Annual Report on August 30, 2024. SMCI ***is unable to file its Annual Report*** within the prescribed time period without unreasonable effort or expense. ***Additional time is needed for SMCI’s management to complete its assessment of the design and operating effectiveness of its internal controls over financial reporting*** as of June 30, 2024. SMCI has not made updates to its results for the fiscal year and quarter ended June 30, 2024 that were announced in SMCI’s press release dated August 6, 2024.

73. On this news, Super Micro stock ***dropped 19.02 percent***, to close at \$443.49 per share on August 28, 2024.

74. Then, on September 26, 2024, *The Wall Street Journal* reported that the U.S. Department of Justice (“DOJ”) had initiated an investigation into Super Micro. The investigation reportedly focused on allegations made by a whistleblower and former employer who accused the Company of accounting violations. On news of the DOJ investigation, Super Micro stock ***dropped 12.17 percent***, to close at \$402.40 per share on September 26, 2024.

CLASS ACTION ALLEGATIONS

75. Plaintiff brings this action as a class action pursuant to Rule 23 of the Federal Rules of Civil Procedure on behalf of all persons or entities who purchased or otherwise acquired Super Micro securities between February 2, 2021 and September 25, 2024, inclusive (the “Class”). Excluded from the Class are Defendants and their families, the officers and directors of Super Micro, members of their immediate families and their legal representatives, heirs, successors or assigns, and any entity in which Defendants have or had a controlling interest.

1 76. The members of the Class are so numerous that joinder of all members is
2 impracticable. The disposition of their claims in a class action will provide substantial benefits to the
3 parties and the Court. Throughout the Class Period, Super Micro securities was actively traded on
4 the NASDAQ, one of the largest stock exchanges in the world. While the exact number of Class
5 members is unknown to Plaintiff at this time and can only be ascertained through appropriate
6 discovery, Plaintiff believes that there are thousands of members in the proposed Class. During the
7 Class Period, there were more than 58 million shares of Super Micro common stock outstanding, and
8 the average daily trading volume was over 2.4 million shares. Record owners and other members of
9 the Class may be identified from records maintained by Super Micro or its transfer agent(s) and may
10 be notified of the pendency of this action using the form of notice similar to that customarily used in
11 securities class actions.

12 77. There is a well-defined community of interest in the questions of law and fact involved
13 in this case. Questions of law and fact common to the members of the Class, which predominate over
14 questions which may affect individual Class members, include:

- 15 a. Whether Defendants violated the Exchange Act;
- 16 b. Whether Defendants omitted and/or misrepresented material facts;
- 17 c. Whether Defendants' statements omitted material facts necessary in order to make
18 the statements made, in light of the circumstances under which they were made,
19 not misleading;
- 20 d. Whether Defendants knew or recklessly disregarded that their statements were
21 false and misleading;
- 22 e. Whether the price of Super Micro stock was artificially inflated; and
- 23 f. The extent of damage sustained by members of the Class and the appropriate
24 measure of damages.

25 78. Plaintiff's claims are typical of those of the Class because Plaintiff and the Class
26 sustained damages as a result of Defendants' wrongful conduct.

1 79. Plaintiff will adequately protect the interests of the Class and has retained counsel who
2 is experienced in securities and class action litigation. Plaintiff has no interests which conflict with
3 those of the Class.

4 80. A class action is superior to all other available methods for the fair and efficient
5 adjudication of this controversy. Joinder of all Class members is impracticable.

6 **APPLICABILITY OF PRESUMPTION OF RELIANCE: FRAUD ON THE MARKET**

7 81. Plaintiff will rely upon the presumption of reliance established by the fraud-on-the-
8 market doctrine in that, among other things:

- 9 a. Defendants made public misrepresentations or failed to disclose material facts
10 during the Class Period;
- 11 b. the omissions and misrepresentations were material;
- 12 c. the Company's securities traded in an efficient market;
- 13 d. the misrepresentations alleged would tend to induce a reasonable investor to
14 misjudge the value of the Company's stock; and
- 15 e. Plaintiff and other members of the Class purchased Super Micro securities between
16 the time Defendants misrepresented or failed to disclose material facts and the time
17 the true facts were disclosed, without knowledge of the misrepresented or omitted
18 facts.

19 82. At all relevant times, the market for Super Micro securities was efficient for the
20 following reasons, among others:

21 83. As a result of the foregoing, the market for Super Micro securities promptly digested
22 current information regarding Super Micro from all publicly available sources and reflected such
23 information in the price of Super Micro securities.

- 24 a. as a regulated issuer, Super Micro filed periodic public reports with the SEC;
- 25 b. Super Micro regularly communicated with public investors via established market
26 communication mechanisms, including through regular disseminations of press
27 releases on the major newswire services and through other wide-ranging public
28

disclosures, such as communications with the financial press, securities analysts, and other similar reporting services;

c. Super Micro was followed by numerous securities analysts employed by major brokerage firms who wrote reports that were distributed to the sales force and certain customers of their respective brokerage firms and that were publicly available and entered the public marketplace; and

d. Super Micro securities were actively traded in an efficient market, including its common stock that was traded on the NASDAQ, under the ticker symbol “SMCI.”

NO SAFE HARBOR

84. The statutory safe harbor provided for forward-looking statements under certain circumstances does not apply to any of the allegedly false statements pleaded in this Complaint. The statements alleged to be false and misleading herein all relate to then-existing facts and conditions. In addition, to the extent certain of the statements alleged to be false may be characterized as forward-looking, they were not identified as “forward-looking statements” when made and there were no meaningful cautionary statements identifying important factors that could cause actual results to differ materially from those in the purportedly forward-looking statements. In the alternative, to the extent that the statutory safe harbor is determined to apply to any forward-looking statements pleaded herein, Defendants are liable for those false forward-looking statements because at the time each of those forward-looking statements were made, the speaker had actual knowledge that the forward-looking statement was materially false or misleading, and/or the forward-looking statement was authorized or approved by an executive officer of Super Micro who knew that the statement was false when made.

LOSS CAUSATION

85. During the Class Period, as detailed herein, Super Micro and the Individual Defendants made materially false and misleading statements and omissions, and engaged in a scheme to deceive the market. These false and misleading statements and omissions artificially inflated the price of Super Micro securities and operated as a fraud or deceit on the Class. Later, when Defendants’ prior misrepresentations and fraudulent conduct were disclosed to the market, the price of Super Micro

securities fell significantly. As a result of their purchases of Super Micro securities during the Class Period, Plaintiff and the Class suffered economic loss, *i.e.*, damages, under the federal securities laws.

- c. engaged in acts, practices and a course of business that operated as a fraud or deceit upon plaintiff and others similarly situated in connection with their purchases of the Company's securities during the Class Period.

90. Defendants acted with scienter in that they knew that the public documents and statements issued or disseminated in the name of the Company were materially false and misleading; knew that such statements or documents would be issued or disseminated to the investing public; and knowingly and substantially participated or acquiesced in the issuance or dissemination of such statements or documents as primary violations of the securities laws. These defendants by virtue of their receipt of information reflecting the true facts of the Company, their control over, and/or receipt

1 and/or modification of the Company's allegedly materially misleading statements, and/or their
2 associations with the Company which made them privy to confidential proprietary information
3 concerning the Company, participated in the fraudulent scheme alleged herein.

4 91. Individual Defendants, who are or were senior executives and/or directors of the
5 Company, had actual knowledge of the material omissions and/or the falsity of the material statements
6 set forth above, and intended to deceive Plaintiff and the other members of the Class, or, in the
7 alternative, acted with reckless disregard for the truth when they failed to ascertain and disclose the
8 true facts in the statements made by them or other Catalent personnel to members of the investing
9 public, including Plaintiff and the Class.

10 92. As a result of the foregoing, the market price of Super Micro securities was artificially
11 inflated during the Class Period. In ignorance of the falsity of Defendants' statements, Plaintiff and
12 the other members of the Class relied on the statements described above and/or the integrity of the
13 market price of Super Micro securities during the Class Period in purchasing Super Micro securities
14 at prices that were artificially inflated as a result of Defendants' false and misleading statements.

15 93. Had Plaintiff and the other members of the Class been aware that the market price of
16 Super Micro securities had been artificially and falsely inflated by Defendants' misleading statements
17 and by the material adverse information which Defendants did not disclose, they would not have
18 purchased Company securities at the artificially inflated prices that they did, or at all.

19 94. As a result of the wrongful conduct alleged herein, Plaintiff and other members of the
20 Class have suffered damages in an amount to be established at trial.

21 95. By reason of the foregoing, Defendants have violated Section 10(b) of the 1934 Act
22 and Rule 10b-5 promulgated thereunder and are liable to the Plaintiff and the other members of the
23 Class for substantial damages which they suffered in connection with their purchase of Super Micro
24 securities during the Class Period.

COUNT II

**Violations of Section 20(a) of The Exchange Act
Against the Individual Defendants**

96. Plaintiff repeats, and realleges each and every allegation contained in the foregoing paragraphs as if fully set forth herein.

97. During the Class Period, the Individual Defendants participated in the operation and management of the Company, and conducted and participated, directly and indirectly, in the conduct of the Company's business affairs. Because of their senior positions, they knew the adverse non-public information about the Company's misstatement of revenue and profit and false financial statements.

98. As officers of a public business, the Individual Defendants had a duty to disseminate accurate and truthful information with respect to the Company's financial condition and results of operations, and to correct promptly any public statements issued by the Company which had become materially false or misleading.

99. Because of their positions of control and authority as senior executives and/or directors, the Individual Defendants were able to, and did, control the contents of the various reports, press releases and public filings which the Company disseminated in the marketplace during the Class Period concerning the Company's results of operations. Throughout the Class Period, the Individual Defendants exercised their power and authority to cause the Company to engage in the wrongful acts complained of herein. The Individual Defendants therefore, were "controlling persons" of the Company within the meaning of Section 20(a) of the Exchange Act. In this capacity, they participated in the unlawful conduct alleged which artificially inflated the market price of Company securities.

100. By reason of the above conduct, the Individual Defendants are liable pursuant to Section 20(a) of the Exchange Act for the violations committed by the Company.
